

Recognized by Frost & Sullivan with the

2022 CUSTOMER VALUE LEADERSHIP AWARD

in the Global
blockchain services industry

VMware spent years in research and development on the core consensus technology to create VMware Blockchain.

VMware Blockchain thus equips enterprises with a robust and highly efficient platform that does not suffer the main drawbacks of alternative blockchain models.

VMware excels in the following criteria in the blockchain services industry:

**Growth
Potential**

Human Capital

**Customer Purchase
Experience**

Brand Equity

Customer Value Leadership Award

recognizes the company that offers products or services customers find superior for the overall price, performance, and quality.
