

SHURE

Recognized by Frost & Sullivan with the

2022 ENABLING TECHNOLOGY LEADERSHIP AWARD

in the global audio conferencing
rooms industry

Enabling Technology Leadership Award

recognizes the company that
applies its technology in new
ways to improve existing products
and services and elevate the
customer experience.

Shure's Stem Ecosystem™ portfolio provides flexible and scalable conferencing solutions for modern meeting rooms.

Committed to innovation and developed with the IT manager in mind, Shure took the primary pain points and developed the platform to create the tools that IT managers needed.

Shure excels in the following criteria in the audio conferencing rooms industry:

**Commercialization
Success**

**Application
Diversity**

**Commitment to
Creativity**

**Customer Service
Experience**
